1st Conference AZIENDA USL Tuscan Center - ITT - ARTOI
VIII ARTOI International Conference

Florence November 11-13, 2016

NEW FRONTIERS OF INTEGRATED ONCOLOGY

FROM RESEARCH TO INTEGRATION IN HEALTH CARE SERVICES

November 11, 2016

Salone dei Cinquecento - Palazzo Vecchio - Piazza della Signoria

November 12-13, 2016

Istituto degli Innocenti - Piazza SS. Annunziata, 12

Integrated Oncology has developed into a consolidated discipline at an international, European and national level both in clinics and research.
It embraces centres, facilities, experience, and practices that will be illustrated and discussed among physicians and researchers in an outstanding international event.
The Conference is supported by Azienda USL Toscana Centro and by ARTOI, in collaboration with Istituto Toscano Tumori as an opportunity to foster the exchange of knowledge and to promote the integration of care. New perspectives will be explored within a Comprehensive Cancer Network, a global network to connect all the centers where integrated cancer care is offered to patients.
The speakers invited to the Conference will present the latest results in experimental and clinical research with the aim to provide effective integrated treatment to patients along protocols of Supportive Cancer Care.
We want to reiterate our daily commitment to the care of cancer patients, to explore new possibilities and design new solutions.
